To Whom It May Concern:

Metro home improvement came out to our house and did a great job wrapping it in vinyl siding, installing replacement windows, and gutters. They completely covered our home and took care of any imperfections on the house that they were covering as they went. It looked like a new house when they were done. They were professional and courteous. They worked well with us in adjusting their work schedule to our children's nap times and made the whole process as convenient as possible. I would call them for further renovations and recommend them to anyone.
