

My home was recently renovated with Vinyl Siding by Metro Home Improvement under the capable hands of Greg McManus.

Initially, my husband and I did a thorough research and we had interviews with comparable companies, but we were very impressed with Greg's Presentation. He was eloquent, knowledgeable and patient. All of our questions were answered to our satisfaction. Added to that he had a personal touch to every advice he gave to us. We therefore did not hesitate to accept his services.

As the work progressed with precision we were in awe at the end result. The Cedar Impression has certainly given our home a beautiful curb appeal. It looks like a new home.

I admired Greg's professionalism. The surrounding area of the house was left tidily each day after work.

Metro Home Improvement will go the extra mile to make its customers happy. So it is with great pride and confidence that I would recommend this company to anyone.
