To Whom It May Concern:

We recently had new siding and window treatments applied to our home and can't say enough about our extremely positive experience with Metro Home Improvements, Inc. From the first meeting with Greg McManus to the final clean up, we had the pleasure of working with professional, courteous, and conscientious craftsmen. The work was meticulously done through each phase. There were some minor items needing to be fixed noted during the final walk through and these were addressed and remedied immediately. We are thrilled with the results and would strongly recommend this ethical and professional company to anyone.
