Hi Greg

Thanks for doing such a great job on replacing the siding and the gutters on my house.

Your crew worked diligently, but was careful and polite. Everyone, especially you and Marci, were geared to making sure that I was happy with the end product. I especially appreciated the follow up on all items and the patience when I didn't have the paint or the replacement hardware picked out.

I am very happy with the end product. Every time I drive up to the house, I comment to myself how great it looks. Thanks.
